

PARALLAX FABRIC DISPLAYS AND SIGNAGE

Our fabric display systems are a simple, versatile, and cost effective way to create a dynamic environment. These versatile profiles can be formed into unique shapes creating stunning backlit graphic panels on a scale that can not be matched by other traditional methods. If you're looking to make your brand or message stand out in a crowd and demand attention, this product is the solution!

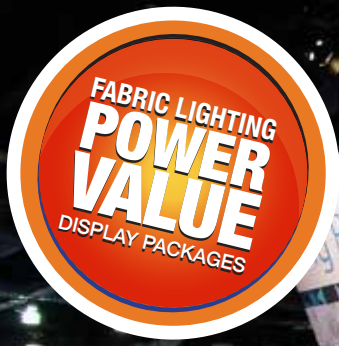

Our displays can be assembled in just a few steps and are available in a range of custom profiles designed to maximize the use of your space. Seamless graphics up to 10' x 100' in size are possible. Display systems are available in single and double sided to suit your needs.

Versatility is the hallmark of this system. Incorporate displays, shelving or other components to accomplish a specific display or marketing need.

Our sturdy lightweight aluminum frame is assembled using a simple connector system and has the option of high powered LED lighting to make any graphic more powerful and captivating.

The fabric prints have a rubber edge welt which is easily inserted into the frame. The elasticity of the fabric ensures easy installation and a perfect fitting finish in the frame. Our fabrics are rich, vibrant, colorfast and machine washable. Combined with the benefit of high resolution and non-glare fabric for stunning image quality.

Flexibility+Value

NEW METHODS PROVIDE FLEXIBILITY TO CREATE CUSTOM SHAPES AND SIZES AND GREAT VALUE SAVINGS IN ENERGY COST AND REPLACEMENT GRAPHICS
